Subject: Vail 104(e) Request for Extension

Scott,

Per your verbal request, EPA is willing to grant a final 30 day extension for VR CPC Holdings, Inc.'s response to the July 26, 2016 104(e) information request. As you know, EPA already granted one 30 day extension, creating a due date of September 26, 2016. The final extension will create a due date of October 26, 2016. While EPA is pleased with the ongoing progress at the Uintah Mining District Site, the information requested remains necessary to fully understand environmental conditions at the Site, as well as various parties' ability to pay for or perform work at the Site. We look forward to receiving a full response on or before October 26th.

Please feel free to contact me with any questions.

Thanks,

ap
